

## Front door locks & furniture options

Our front door range of security and furniture been specially selected for being high quality, hard wearing, and elegant. Below is our range of locks and furniture for you to choose:

### Multipoint locks by Winkhaus

The Winkhaus AV2 Heritage multipoint lock is located at a similar height to a traditional round cylinder pull but provides instant higher security as the lock is operated automatically as soon as the door is closed. This means that an external lever handle is not required to operate the locking points and the lock can be deadlocked or opened externally by turning the key a quarter of a turn. From the inside the door can be opened by an internal thumbturn. The door is automatically locked when closed from the inside and the key is required to gain entry from the outside.

## Banham locks

Banham locks are extremely high-quality door locks, combining almost a century of experience with modern technology.

The prestige and quality of their security door locks are evident through the many awards and accreditations they have received over the years.

**L2000**
