SASH WINDOW

HARDWARE & FITTINGS

Welcome to our Sash Window Hardware and Fittings brochure, showcasing two expertly curated ranges: Classic and Deluxe. Each range has been chosen for its outstanding quality and attention to detail, providing not only style but also enhanced security for your sash windows.

With options to meet varying needs, our hardware is designed to offer lasting durability and dependable performance.

If you require a particular design that isn't featured, we are happy to source it for you.

Sash Window Ironmongery - *Classic Range Restrictors*

Our range of sash window restrictors provides safety, security, and peace of mind while maintaining the traditional look of your windows. Each option is shown here installed in situ, so you can see exactly how they work in practice. From fire-egress solutions to secure locking options, these restrictors are designed to meet modern safety standards and insurance requirements without compromising on style.

Angel Ventlock (Fire Egress)

Angel Ventlock (Fire Egress)

Designed for windows that must provide a fire escape route, the Angel Ventlock allows the sash to be restricted for everyday use while still releasing quickly in an emergency. In addition to meeting fire-egress requirements, it also carries Secured by Design accreditation, offering insurance-approved security.

Locking Ventlock

Locking Ventlock

A key-operated restrictor that provides excellent security and meets Secured by Design standards. This restrictor is ideal where fire-egress is not required, giving homeowners confidence that their windows are locked against forced entry while still allowing controlled ventilation.

Sash Stops

Sash Stops

A traditional style of window restrictor, sash stops are fitted into the frame and secured with a removable key. They offer a discreet way to limit window opening for ventilation while maintaining security - ideal for period properties where a classic look is preferred.

Sash Window Ironmongery - Classic Range Sash Lifts & Ring Pulls

Our Classic Range of sash window hardware includes locks, lifts, fasteners, and pulleys - each selected for its quality, reliability, and clean, traditional design.
